## Prizes Awarded In Talent Scout Show

It can truly be said we witnessed the "greatest show on earth" at the Prince Theatre, Tuesday night, when Malcolm Millar presented the grand finale of his Talent Scout Night show before one of the largest gatherings of theatre-goers we have seen assembled here in some time.

Hot Lips and Jasper received an avalanche of applause, signifying the unanimous approval of the audience for them as first winners. Malcolm presented them with \$100 in trade on a Home Freezer or Refrigerator from the Glades Equipment Company, \$75 in trade from the Glades Mercantile, a handsome cedar chest from Collins Furniture and a silver (engraved) loving cup from Parrish Jewelry Company.

Bob Sears took second place, whistling "The Indian Love Call" and "Piano Roll Blues." His presentation brought deafening applause from the crowd. He was presented with a General Electric automatic toaster by Jones Hardware, a table model FM and AM Truetones Radio from Western Auto Supply and a fine gentleman's wrist watch from Duval Jewelry Company.

The Harmony Four, consisting of four young "blades", wearing side-burns and mustaches, Hattie with sailor straws, with garters on their arms, vests and batwing ties, "barbershopped" themselves into third place with their harmonic singing of "Carolina Moon" and "Shine on Harvest Moon."

It was announced Grand First and Grand Second winners would be presented over station WTVJ "Miami's first television station" at a date to be announced later.

Other meritorious acts appearing on the program, all of whom displayed real talent and received enthusiastic applause from the audience were Val Gabaldin, saxophonist; Buddy Edfielden, Yo-Yo novelty; Jackie Sullivan, who suffered hard luck in his act, (The mike gave out for awhile and Jackie gave out without sound, but finished with one grand hand); Myra Jones, Songstress; Valerie Geiger, a melody of songs; Jackie Scruggs, a comedy song and Horace Scruggs, a blackface act; Adrian Gabaldin, at the piano and Evelyn Clay, last year grand first place winner, acrobatic novelty.

Mrs. George Tucker, Secretary of the Pahokee Woman's Club, Dr. Spooner, 1st Vice President Lions Club and Harold Rosenberg, Secretary of Rotary Club, were the judges.

Malcolm praised the talent he has presented during the six weeks of eliminations and announced he was bringing over the first, second and third Grand Winners from Belle Glade next Tuesday night and they would appear on the program with the Technicolor picture "On an Island with You", starring Esther Williams and Peter Lay.

Florida A. & M. College, Tallahassee, has over 1,400 students registered for the second term of summer school, which ends August 20.

## Funeral Services For Infant Strickland

Funeral services for Barbarette Strickland, infant daughter of Mr. and Mrs. Cobie Strickland of Indiantown, were held at the graveside in the Port Mayaca Cemetery Monday at 3 p. m., with the pastor of the Indiantown Baptist Church officiating.

The infant died a few hours after birth at the Everglades Memorial Hospital Sunday, July 30. Berry's Funeral Home was in charge of arrangements.

## Vacation School Teachers Named

The Canal Point Baptist Church is to have a Vacation Bible School beginning August 14 and extending thru August 25. All boys and girls ages 4 thru 16 are invited to attend. The hours of the school each day are from 8:30 to 11:00 a. m.

All the teachers have not been selected to date, but those who have been selected are: Beginner Dept., Mrs. C. H. Jones; Mrs. L. V. McClelland; Mrs. C. B. Jones; Mrs. Joe Calhoun; Primary Dept., Mrs. O. H. Chastain; Mrs. A. H. Scruggs; Mrs. J. E. Williams; Miss Marlene Williams; Mrs. C. H. Hitchcock; Mrs. Ben Walker; Junior Dept., Miss Dellona Jones; Mrs. M. J. Sapp; Mrs. R. T. Smith; Mrs. Wade Ammons; Mrs. Oliver; Intermediate Dept., Mrs. A. R. Chastain; Mrs. George Tucker; Mr. Wyatt Flowers; Mrs. G. L. Sims; Smyly the pianist and Bro. C. J. Smyly the principal.

## New Road Camp In Palm Beach County

Bids for construction of a State prison camp on State-Road 80, 7½ miles west of West Palm Beach, will be opened Wednesday by the State Road Dept. at Tallahassee. Bids also were to be opened for a similar camp near Middleburg.

The proposed construction includes erection at both camps of steel frame barracks, gasoline station buildings, tool sheds, laundry, boiler house and guard stands.

County Eng. J. M. Boyd said that the county early this year deeded to the State 10 acres of land approximately a half mile west of SR 7 and approximately a quarter mile north of SR 80.

"This will be a new State prison camp, not one that is being moved here. It will mean a ready supply of State maintenance crews in this area."

Educators who saw the Florida premier showing of Ross Allen's two-reel featurette film, "Danger Is My Business," predict that it will be a smash hit for 1950-51 State school showings, particularly in South Florida. This technicolor short, made by Warner Brothers, gives closeup shots of the 1949 safari made by Allen and his aides into the Everglades in pursuit of others, wildcats and other denizens of the jungle.

## Dry Corn Moves To Market From Area Around South Bay

The summer harvest of dry corn is now under way in the South Bay-Okeelanta-Bean City area.

The Everglades Produce Co. headed by Frank Anderson several years ago converted one packing shed to handle dry corn, installing drier, sheller and elevator and such other equipment that is necessary to take care of the dry corn crop.

The corn is gathered in the field either by hand labor or by mechanical corn pickers depending on the size of the field and the equipment of the grower.

Owing to the fact that the much is often soft from the summer rains at time of harvest a special wagon with wide wheels was developed to bring the corn out of the field. It is drawn in the field by a caterpillar type tractor.

The corn, largely the Big Joe

type developed at the Everglades Experiment Station especially for the Lake Okeechobee Everglades is taken to the packing house where it is dried, shelled and loaded by elevator into freight cars.

Most of the corn is going out in bulk, 1,000 bushels of shelled corn to the car. Some, however, is being sacked and sold, according to R. L. Arnold, plant manager.

The corn harvest started early in July and is now moving to market at the rate of one car per day from the South Bay station.

The corn is bailed to Tampa where it is either sold for cattle feed or made into scratch feed for poultry. The Everglades dry corn, therefore is largely going to fatten Florida cattle and poultry products for market.

This summer harvest of dry corn is doing much to make the Lake Okeechobee Everglades a year around production area for the local growers and brings in a cash crop at the season which was in years past completely nonproductive to the south Florida farmers.

## Gene Pickren Talks To Pahokee Rotes

Gene Pickren, reserve officer in the U. S. Army, gave a talk on "The Atom Bomb and its Potentials" at the Thursday luncheon meeting of the Pahokee Rotary Club last week.

Robert Apelgren, formerly of Miami, was received into the club as an associate member. President C. L. Shirley presided.

Robert Luppi, who was received into the club as a new member a few weeks ago, has been named pianist for the club. He is the director of the Pahokee High School band.

The Water Ski School, on Lake Ivanhoe, Orlando, is proving a popular summer spot, where Henry Suydan, Rollins College ski coach, gives both lessons and exhibitions in the sport. Later this month sponsored by Dick Pope, Sr., of Cypress Gardens, Suydan will enter ski tournaments in Seattle and Toronto.

## Miss Clay Performs For Pahokee Lions

A program of acrobatic dances was presented by Miss Evelyn Clay of Canal Point at the Tuesday luncheon meeting of the Pahokee Lions Club. Miss Clay was accompanied at the piano by Miss Patsy Maxon, also of Canal Point.

Reports on the Lions International Convention, held recently in Chicago, were given by M. I. Kene and Melvin Spooner, local delegates. President Thomas Baldwin presided.

## Radio Units Will Be Purchased For Sheriff's Office

Bids for equipment for a county-wide radio system for Sheriff John Kirk's office will be received by the county commission Aug. 14.

Announcing this Wednesday, Vice-Chairman Paul Rardin said the county proposes to buy a base station and transmitter, plus 10 mobile units.

The headquarters station will be in the new hurricane-proof county jail now approaching completion in West Palm Beach, with transmitting antenna on the roof. Eight of the mobile units will be employed in coastal areas and two in the Everglades.

The new equipment is necessary, Rardin said, because of federal regulations barring the sheriff's office from using Florida Highway Patrol radio frequencies as it has done in the past.

## 3700 Applicants Seeking 300 Jobs

Job hunters shouldn't be too optimistic about getting hired at the new Southeast Florida state sanatorium at Lantana, opening Aug. 15.

There are 3,700 applicants already for the 300 jobs that will be available. One job alone—that of laundry manager—has 82 seekers.

Furthermore, help will be taken on only as the hospital's patient load increases. Only 20 patients are slated to enter on Aug. 15. Its full patient population of 500 won't be reached until January.

## Report Is Heard On Lions Trip Chicago

Manning I. Keen of Pahokee, Lions deputy district governor, and Melvin Spooner, also a member of the Pahokee club, gave reports on the Lions International Convention, which they attended recently in Chicago, at the dinner meeting of the Canal Point Lions Club Monday night.

President Boyd Vorhees called an all new committee chairman to report at the next meeting club achievements through the month of July and outline activity plans for the remainder of the year. C. J. Smyly, new pastor of the Canal Point Missionary Church, was introduced as a visitor.

## Bid Received On County Park Bldg.

First steps in constructing a new county park building at Canal Point, a structure that will serve as a general social and meeting center, were taken by the Palm Beach County Commission Monday when bids on the job were received.

The lone bidder on the project was Don Hillier & Sons of Pahokee who submitted a lump sum bid of \$30,750. The bid was referred to County Engineer J. M. Boyd for study and a report is slated at the commission meeting next Monday.

Vice Chairman Paul Rardin, who presided at the meeting this week in the absence of Chairman Lake Lytal, said the new structure would be used for both Boy and Girl Scout meetings, 4-H Club meetings and other community affairs. The building, 30x100 feet, will include an auditorium and kitchen.

The group heard a report from Commissioner Kenneth Foster, Dist. 1, that dredging of a 3½ acre fill for a county park off the Riviera Beach Memorial Bridge causeway had been completed. He said that work would start immediately for building a parking area for cars but that other major improvements which will include a small boat landing and picnic area, will be held up until after the hurricane season.

The recent mosquito plague which has swept the county east coast was also a subject of discussion. The commission authorized use of an airplane for spraying the coastal area in an attempt to wipe out the droves of insect pests which have swarmed in during the past week.

The group also voted that each commissioner should arrange impounding pens and truck transportation to comply with the state's new law to keep cattle off the highway. The commission is responsible for making holding pens available for cattle picked up by the sheriff's department. The law provides that if the cattle are not claimed by the owners, they shall be sold by the county to pay handling costs.

The commission also approved certification to the State Road Department for right-of-way for widening four blocks of U. S. 1 in Lake Worth and for the 45th St. extension in West Palm Beach.

They also approved recording in the minutes, a news story about the injury of eight persons as a result of stock car races in connection with commission action in turning down a bid to hold stock car races at International Airport.

## Todd Family Returns To Pahokee This Week

Rev. and Mrs. Ralph W. Todd and daughter are expected to return home this weekend after a month's visit with relatives in Texas. The Rev. Todd is scheduled to deliver the sermons at both the morning and evening services of the Pahokee First Methodist Church Sunday. Special music will be furnished at the morning service by Mrs. Robert Walker and Dr. Gordon Schettler, vocal duet.

## News Notes From State Capital

TALLAHASSEE—Attacking the state road department policy of non-competitive renting of road building equipment, Robert O. Ghiozzo and Arthur J. Sims have asked a local circuit court to stop payments for a Citrus County road job. Both were employed by the state at the start of the Warren administration, but later were shifted lower on the scale and now have resigned. Attorney General Ervin has joined them in the suit against a practice Ervin said he protested when he formerly was attorney for the road department.

TALLAHASSEE—Governor Warren has named Amos Hall, former Hollywood City councilman, to succeed Walter Clark as sheriff of Broward County. The new sheriff, who will serve until the next senate meets to consider Clark's suspension from office for malfeasance, was the nominee of State Senator George E. Leaird of Fort Lauderdale. The Broward County Warren policy committee resigned when their plan for an immediate special election was brushed off.

TALLAHASSEE—Hope for a medical school for Florida was virtually embalmed here when the state cabinet turned down a \$2,500 request to start plans for such a unit at the University of Florida. The last legislature, yielding to several pressure groups located the prospective school at Gainesville. Preliminary plans call for spending \$19,000,000 for such a school, considered a prohibitive amount now.

TALLAHASSEE—The Dade County Newsdealers Supply Company will get a hearing here August 4 by the Florida Railroad and Public Utilities Commission on whether their telephones shall be restored. They were yanked out on the complaint of Attorney General Ervin that bookmaking was going on there. The utilities commission refused to give the company a hearing until the phones actually were cut off, as required by the 1949 bookee law. Graham Press, also of Miami, had his phone taken out for the same reason, but it did not ask for a restoration hearing.

## Ad Campaign Sells Florida To Folks In Faraway Clime

TALLAHASSEE—From the north and the south and the east and the west—the Florida State Advertising Commission is getting letters of thanks for services rendered in telling people about Florida.

At first it seemed paradoxical that people would write and say "thank you" for material urging folks to come to the Sunshine State. After all, that's the whole purpose of the Commission. The more people who answer advertisements in magazines and newspapers, the more people come to Florida to engage in agriculture, industry or just to visit.

But the file in the Commission's office marked "Thank You Letters" is bulging with notes and postcards not only from the 48 states but from such far away places as the Principality of Monaco, the British Isles, Japan, Ceylon, and Malta, just to mention a few.

From Balzan in Malta one Joe Agills expresses his appreciation for Florida literature thusly: "I saw and read that there are many swimming pools and beaches. Here in Malta we have nothing, no lakes, no jungles, no wild animals, we have nothing at all. Dear Sir I have nothing to tell you more. When I will have my own age I think I shall have a trip. I thank you so much to send your best catalog."

James Daniel, who lives in Nigeria, British West Africa writes: "Yours was received, and the contents therein were thoroughly understood. Thanks to the Governor of Florida. But there is no way for us to come there. I want to send you some good seeds to plant them in your good gardens. I send a dozen in this envelope to you to plant. They are for eating, and they are for use for eating. Put soil when planting. Thanks you all, loving friend, James Daniel."

Distance makes the interests of Joe and James in Florida purely a matter of international good fellowship but most of the letters in the "Thank You Letters" file indicate more material results from the State's advertising program.

Miss Katherine Erion of Buffalo, New York, says on a postcard: "I wish to thank you for the Florida literature you sent me. A party of three of us motored over 4,000 miles to Miami. We enjoyed every bit of our visit to Florida. This was my third visit and I noted great improvement since my last visit some ten years ago."

Even California comes in on the act. From Dinuba in the Golden State, comes a message from Mrs. Helen Goerner who writes: "I never knew that there are so many pretty things to see, and so many nice places in Florida. I sure want to go to Florida as soon as I can see my way clear."

## Marines Are Looking For New Recruits

JACKSONVILLE—Marine Corps recruiting stations throughout Florida are now on a seven-day weekly basis, according to Captain J. J. Reardon, State Marine recruiting officer.

Reardon said the offices, located in the post office building in Jacksonville, Miami, Ocala, Orlando and Tampa, will be open from 8:00 A. M. to 4:30 P. M. Monday through Saturday, and from 1:00 to 4:30 P. M. on Sunday. A full working day will be observed on Labor Day, he added.

"This change in hours," he explained, "has been made to accommodate those persons who are unable to contact local recruiting stations during their regular working hours."

Pathfinder magazine carried a feature story on the capture of a boa constrictor near Jacksonville by Florida's famed "snake man," Ross Allen, of Silver Springs.

## POLIO PRECAUTIONS

RECOMMENDED BY  
THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

WHEN POLIO IS AROUND, the National Foundation for Infantile Paralysis recommends these simple precautions: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay too long in cold water or sit around in wet clothes. And always wash hands before eating. Watch for feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. Call your doctor and then, if help is needed contact the National Foundation Chapter in your area.

## Study Will Be Made Of Ocean Fish Food

thickast.

Dr. F. G. Walton Smith, head of the Marine Laboratory, is directing the survey, assisted by Dr. Hilary B. Moore. The U-M study is being made in cooperation with the National Geographic Society. The Marine Laboratory's boat, Megalopa, is being used in the research.

"Because the Children's Home Society of Florida doesn't do a lot of public begging for help," comments the Melbourne Times, "is no sign that this great charity isn't in constant need of it." Many Floridians, whose own homes have been blessed through the Home Society, will bear personal witness that the Jacksonville institution deserves all help it gets — and more!

Common	\$21.25-23.00
Inferior	\$18.00-20.50

## Stocke Cows

Common	\$18.24-20.00
Inferior	\$12.50-18.50

Total Cattle, 339, Total Calves, 106, Grand Total, 445 Hogs, 60 Total Sales, \$40,800.00.

507 animals went through the market Friday, returning \$40,800 to the producers. They included 162 slaughtered cattle, 62 slaughtered calves, and 177 cattle and 44 calves went to stocker buyers. 60 hogs were sold with slaughter hogs bringing \$18.00-20.00. Very noticeable was the lower class of cattle offered this week with 66 of 78 cows grading cutters and canners and 56 of 64 steers grading common and inferior. Only 28 of 53 slaughtered steers graded common or better.

We do not anticipate much change in the general price level.

until early fall. Local producers will absorb all available stocker cattle at good prices.

Cattle stealing in South Florida is becoming all too common. One cattlemen from Bean City reports 5 cows shot with 22 rifle within recent weeks. Cattlemen in Dade and Broward Counties report the same condition. This loss of cattle from these sources can be materially checked by united effort. Cattlemen are urged to actively support their association and association directors are urged to coordinate efforts with neighboring associations.

Seaboard Air Line Railway has applied to State Railroad and Public Utilities Commission for permission to discontinue two St. Petersburg-Tampa passenger trains, with another concurrent application filed to establish truck service between those two points in case the trains are discontinued.

Paul S. Willis, president of the Grocery Manufacturers Association of America, points out that food is plentiful and warns that there is no occasion for hoarding or excessive buying. Such action will force higher prices and is uncalled for.

## Mitchell Is Named For Industrial Job

R. O. Mitchell will have charge of the branch office of the Florida Apprenticeship Council which will be established in Miami effective August 1, Raymond E. Barnes, Chairman of the Florida Industrial Commission, announced today.

Barnes said F. J. Vandillon, Executive Secretary of the Council, will continue to direct the state program and service the apprenticeship committees in the northern part of the state, while Mitchell, formerly working out of the Tallahassee office as Field Supervisor, will continue in this capacity and service South Florida.

The continuous growth of the apprenticeship program in the southern part of the state necessitated placement of a representative from the central office who would be able to give more personal attention to the programs.

Activities of the newly established office will include assistance to employee-employer groups in organizing apprenticeship programs, developing standards, and servicing programs already in operation.

Pending the establishment of a

permanent office, Mitchell may be contacted through the Miami office of the Florida State Employment Service, 501 N. E. 1st Avenue, Telephone 9-8341.

## Cypress Knee Firm Will Get New Home

PALMDALE — Tom Gaskins, originator and sole owner of the patented Cypress Knee Products process that transforms those gnarled and misshapen swamp uglies into beautiful works of art, has announced that, when building materials are definitely accessible, he will open an up-to-date museum at his Gaskins Lodge spot here on U. S. 27, sixteen miles northwest of Moore Haven. The building itself, says Gaskins, will be ultra modern, with construction plans calling for an outlay of between \$10,000 and \$15,000.

Gaskins, native of Arcadia, has built up from scratch an industry that, totally unique and fully protected by government patent, has attracted to his vocation tremendous attention and extensive sales, not only in Florida but in all the other 47 states and several foreign countries, where his creations.

such as floor lamps, ear bobs, clocks, vases, bird cages, and other objects have been sought both for their sheer beauty and for utilitarian purposes.

# Try this on your stereoscope!

WHEN THIS "VIEWER" was in the parlor, folks used to look at pictures like these.

They'd spend many an hour gazing wistfully at scenes of places they'd like to visit, things they'd like to do.

But, today, there's an invention that beats those stereoscopic pictures all hollow. No—it isn't television.

It's the Payroll Savings Plan—an automatic

method of saving that all but puts you on that liner and says "bon voyage."

'So simple, so painless, so sure—the Payroll Savings Plan sets aside a small part of your earnings each and every pay day, puts it in United States Savings Bonds.

And those bonds grow and GROW. In ten short years they pay you back \$4 for every \$3 you put in today.

A self-fattening investment—guaranteed by Uncle Sam—that will let you do things for your family and for yourself that you could never do without such a convenient plan.

And, if you're not on a payroll, there's the equally convenient, equally profitable Bond-A-Month Plan at your bank.

No matter how you look at them, U. S. Savings Bonds help to picture a bright, happy future!

## Automatic saving is sure saving—U.S. Savings Bonds

## Christian Science Society

**CHURCH OF CHRIST SCIENTIST**  
"SPIRIT" is the subject of the Lesson-Sermon which will be read in Churches of Christ, "Scientist," throughout the world on Sunday, August 6.

The Golden Text is: "The fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance; against such there is no law" (Gal. 5: 22, 23).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "... when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward

thee openly" (Matt. 6: 6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The closet typifies the sanctuary of Spirit, the door of which shuts out sinful sense but lets in Truth, Life, and Love. . . . To enter into the heart of prayer, the door of the erring senses must be closed. Lips must be mute and materialism silent, that man may have audience with Spirit, the divine Principle, Love, which destroys all error" (15:3-5, 9).

## Mrs. Donald Collier Honored At Shower

Mrs. Charles Brown and Mrs. Dan Morris entertained at the Woman's Club building recently with a bride's party and miscellaneous shower, in compliment to Mrs. Donald Collier, who before her marriage on July was Virginia Huffman.

The hostesses used cut roses and zinnias as floral decorations for the affair. Contest prizes were awarded to Mrs. Lois Collier and Mrs. Marie Funderburk. Refreshments were served to more than 20 guests.

The average United States family opened 750 cans of food last year, according to a recent survey of the American Can Company. Over 30 million cans were consumed, two-thirds of which contained food products.

Cane sugar is good to eat at any stage of refining while beet sugar is not good until the final stage of refining has been reached.

## Seasonal Decline On Employment

**TALLAHASSEE** — Continued seasonal declines in estimated employment in Florida manufacturing plants is noticeable in June. The level of employment in these industries is, however, 4,600 above that of June 1949 according to Raymond E. Barnes, Chairman of the Florida Industrial Commission.

Plants producing durable goods employed only 20 fewer workers in June as compared to May. In June 1949 the estimated level of employment in these plants was 31,800 while in the current month the level is 34,300. Employers in durable goods plants paid an average of \$1.05 per hour in June of this year compared to \$.92 per hour a year ago.

The greatest seasonal loss in employment was experienced in plants producing nondurable goods. The

estimated level in May was 54,200, whereas the June estimate was 52,200. Hourly earnings were up three cents from May.

Plants producing food and kindred products were largely responsible for the month to month employment decline due to the ending of the citrus season. The length of the work week in these industries was, down from May by 2.8 hours to an estimated 45.2 hours; however, hourly earnings were up by approximately four cents.

The top-ranking legal talent available to the State administration is being assembled to defend the State Road Department against the suit filed by two ex-SDR employees, on alleged charges of road equipment rental patronage.

Grated raw potato rubbed into persistent mud stains will remove them.

## Come to Church

The churches of the Everglades extend a warm welcome to every person to attend church on Sunday. You'll get a deep satisfaction out of attending the church of your choice. You'll personally enjoy the wonderful messages of faith which are in store for you during this good year ahead. Today, make a resolution that one hour out of the week's 168 will be devoted to church services. Can you do less? Watch the columns of The Everglades News for church announcements weekly. The Lake Region is blessed with a group of fine churches. Your attendance will make the work of these churches more successful.

# Mind if we read your palm?

These long mixed lines show it is hard for this person to keep money.

These lines show riches brought about by one's own efforts.

Loose flesh at the base of the thumb denotes a person who plans carefully.

**WE'LL BET** that this hand belongs to a person who invests regularly in U. S. Savings Bonds.

It is the hand of a person who plans for the future wisely and well. One who has enrolled in the Payroll Savings Plan where he works—or, if he's not on salary, on the equally convenient, equally *profitable* Bond-A-Month Plan at his bank.

U. S. Savings Bonds are Government guaranteed to pay you back \$4 for every \$3 you put in—after ten years. There is no surer, wiser investment a man can make today!

Cross your own palm with plenty of silver in years to come. Start saving right away with U. S. Savings Bonds!

*Automatic saving is  
sure saving—  
U.S. Savings Bonds*

### CARD OF THANKS

We want to thank all the good friends and neighbors in and around Canal Point for the good spirit they had and kindness rendered to me and my wife, while we were in Pahokee Hospital. We never can thank them enough. Also for the prompt attention and good service the Hospital Staff gave us while there.

May God bless each and every one of you.

Mr. and Mrs. L. L. Horne

P. S. We recommend the Pahokee hospital to any one for good service.

## New Broadcasts To Boost Agriculture

LAKELAND—William Westcott, Public Relations Director of Florida Citrus Mutual, is attending a series of conferences in Washington, with officials of the United States Department of Agriculture, preparing a series of radio programs.

He is conferring with Ken Wagen, Radio and Television Director of the Department of Agriculture.

They are working out a series of programs for broadcasting over Florida stations. Wescott will par-

ticipate in the International Apple Association convention, which will be held Aug. 7-10, in Washington.

Much of the material on the programs will be based on research done by Henry Burke, of the Office of Foreign Agricultural Relations of the Department of Agriculture. Wagon, widely known in the agricultural radio field, is director of the National Farm and Home Hour, heard over a nationwide hook-up.

Daniel Webster was born in 1782. In 1797, at the age of fifteen, he entered Dartmouth College and was graduated four years later.
